## Executive Orders gone wild

January 12th, 2010 6:40 pm CT

Yet another disturbing Executive Order was signed yesterday, January 11th, 2010. Some are calling it a closer step toward Martial Law and others are speculating that it almost seems to change our current form of government. This is yet the 3rd bombshell of Executive Orders signed in the last few weeks.

### 1. Executive Order - [Establishes Council of Governors](#) - January 11, 2010

"When appointed, the Council will be reviewing such matters as involving the National Guard of the various States; homeland defense; civil support; synchronization and integration of State and Federal military activities in the United States; and other matters of mutual interest pertaining to National Guard, homeland defense, and civil support activities."

All persons on this newly created Council of Governors will be directly appointed by Obama. Except for the 10 Governors that will be chosen, the rest of the members will come mainly from Homeland Security. This action finally and predictably is the formal

come mainly from Homeland Security. The action mainly and probably is the formal order to take over complete control of all State's National Guard units by the Executive Branch of our Federal Government. I wonder how the other 40 State Governors that are not among those appointed to this new Council are going to take this news?

This dangerous monstrosity was actually required by the fiscal year 2008 Defense Authorization Act. Thank you Congress and let us not forget Bush.

2. Executive Order - [Medical Countermeasures Following a Biological Attack](#) - December 30, 2009

This order instructs the complete control of all federal, state, local and tribal governments and agencies in order to coordinate efforts to distribute medicines via the US Postal service to counter a wide-spread biological attack upon the United States. It specifically mentions Anthrax. Is there an imminent threat they are not telling us about or a planned false flag in the works?

3. Executive Order - [Amending Executive Order 12425](#) - December 17, 2009

Declares Interpol which is an International Criminal Police Organization to now be considered a Public organization and entitles it to operate within the United States under complete immunity from prosecution and excludes its activities from any FOIA (Freedom Of Information Act) requests.

Allow me to restate this. An International Police Force is not only operating within the US but has just been given complete immunity and total secrecy from the American people.

Well...there you have it. What form of government is being set up before our eyes? Certainly not one that has anything to do with our US Constitution or the Bill of Rights. Maybe that is why all such orders are considered unconstitutional and just a really bad idea. Our Founding Fathers must be turning over in their graves. Didn't they already fight this battle and win?

Liberty requires a constant vigilance to protect and defend it.
