Prophets and scientists predict an apocalyptic end to our millennium and focus on the next ten years as being the most dangerous, yet potentially most transforming epoch that we have ever faced. This work begins with a survey of the original blue-print of our species, revealing that we are richly endowed

Editorial Reviews

Decrying "the whole New Age lexicon of pseudo-science and pseudo-mysticism," this weightless, witless and copiously illustrated tome nevertheless appropriates New Age themes as it proposes that man is on the verge of attaining an ineffable cosmic consciousness. Playing upon the fears of apocalypse that historically accompany the closing of a century (and especially one that ends a millennium), the author glibly enumerates both material threats to survival and mystical prophecies of doom to prove that we are at a unique point in our evolution as a species and in our role on this planet. Given our astonishing information-processing technologies, for example, "in biological terms it is not unreasonable to conclude that human beings might well be the Earth's way of gaining global consciousness." Disdaining scientists, whom he describes as "blindfolded," Yatri extols and paraphrases Eastern spiritual leaders. He also suggests that the key to our evolution may be the activation of currently unfathomable brain capacities and "dormant" glands like the thymus. The author wisely seeks refuge in a pseudonym ("Yatri" is Hindi for "traveler"). 35,000 first printing in paper.

swirling expansive philosophy and cosmology to make ya think

By A Customer on April 10, 1999

Format: Paperback
If this is the one by "Yatri" I cannot recommend it highly enough. I found a copy at a book "warehouse" for two bucks, and even after reading it three times I still have a lot to learn from this book. Meet modern gurus and "messiahs" and learn about your chakras and human potential.

A rare find

By [B. WEHMEYER](#) on May 3, 2006

Format: Paperback
This book was so inspiring to me that I named my first born after the author 'Yatri'.

Yatri (the author's book name) is an Englishman that had spend many years in the highlands of India. He wasn't an anthropologist of anything like that, but he had a vision, or insight, to stop doing what he did and to go to India. It changed his life and the book, the only one he published as far as I know, is a rare treasure.

For it's time the book is beautifully composition and well written. Every sentence is absorbing. It was almost written like Kahlil Gibran's The Prophet, from whom by the was I took the name for of my second born Kahlil.

It is a serious book on spirituality. It is however spiced with lots of high impact predictions of the

2009 Revisiting Yatri

By [Bette Inman](#) on September 18, 2009

Format: Paperback

Like many others, I found this book inspiring and amazing when I first read it in 1990 but it had sat on my shelf for many years. Just this morning 09/18/09, I got it out to reference something and was totally amazed at how enlightened the perspective was and how timely the book is now.

A must read for those who are forging their own paths. No pattern, no formula but intuitively knowing what Yatri envisioned a decade ago.

THIS IS A KEEPER! A book to induce thought.

By ["nicknameinusealready"](#) on May 4, 2004

Format: Paperback

I love this book.

1. The graphics and illustrations are wonderful.
2. Yatri compiles a vast quantity of good quotes from knowledgeable and honorable people.
3. His speculations for the future of man are not all that out of reach, given the polluted and radiated environment we are living in today, which is becoming more polluted and radiated as the USA TECH wars show their ugly presence.
4. Today's life, and death, should be about transcendance, and Yatri's book introduces that to one and strongly compells one to search for a better way to live, a better way to fully live.
5. I love this book, for it gives me a unique hope that men will survive their own collective stupidity and nearsightedness.

Unknown man helps man be k"now"ing

By [Laurens Maas](#) on October 20, 2005

Format: Paperback

This book I first bought when it came out in 1988 and since then I have referanced it lovingly. It is written both scientifically and mystically and appeals to my mind. It is a classic text that will guide the reader through the history of mans undeniable shame and violence towards virtually everything. The author then guides through the potential way out of this situation by turning towards the guidance of higher spirituality of yoga, Hinduism, Sufism, kabbalah. He describes the coming of a new species of human that really knows what it takes to live on this sacred planet with the other human becomings/beings. There is alight at the end of the tunnel yet it takes honesty ,courage , a brain and a heart to get to that light. This is a great book and I thank the author for creating such a masterful piece of work. Om and amen.
