Michael, I listened to a recent Ian Carroll podcast describing a 90,000 square foot Data C going in under the White House, 9 stories down, based on an identical Data Center that tl have, all with Larry Ellison's blessing. The court order to stop the ballroom does not apply work underground. The ballroom is just a cover story. We are entering a world of social cr and government by AI. As this is occurring at the White House, it needs no Congressiona and hides under National Security. We don't need humans in DC now that we have an Isra Center running our government. Also, regarding the great awakening, if it is happening, tl of the nostalgia for the past is based on lies. FDR lied us into war, stole our gold, and colk his citizens (via SS). The moon exploration was a lie. 9/11 was a lie. Yes, they hate the US of our freedoms declared W. But who are "they.?"

Our minds are synced, I've just written a "Randoms" including the information about Center under the ballroom.

I regret that some of your insinuation implies that Israel is in control of us all. I didn't wasn't true, I just said I regret that you had to say it.

Based on your comment you know who "they" are, and want me to say it.

I've literally lost over 1/3 of my audience implying the point you are making. I'd prefer maintain some readership, so I'll avoid coming to a proper conclusion.

I'm at a crossroads. Change, write linked columns with support from the media, or write human interest spots. To keep up this line of bashing will cost me the column.

Just ask a friend at the bar this week, why do we need a thousand and more Data Ce being built right now? Why? What purpose will the serve, and whom?

Thank you for your reply. No, I am not so simplistic as to think it is "Israel" alone support for "Israel" is a catchall that represents a number of interests and ethnic are aligned toward some purpose that I disagree with. At the very least, I am like Congressman Thomas Massie, who I donated \$50 to yesterday, in that I would like cessation of US foreign aid going to this and other countries and foreign entities for my tax dollars. I am against dual citizens being eligible to hold public office. I America First.
