

COVER-UPsteria: Best Jeffrey Epstein Memes

I found the missing 1-minute video, you need to STOP talking about it, some think paedophilia is negotiable, guess who is the Deep State now, a system not worth saving more Jeffrey Epstein memes!

Contrary to what Trump et al want, Jeffrey Epstein and the Epstein files are NOT going away as more theories drop. Remember, Ghislaine Maxwell's father Robert got his start building a media empire by publishing obscure scientific journals & research:

This is wild.

Eric Weinstein says he'd "bet money" Epstein was an intelligence asset—and that his reach even extended to controlling scientists and burying discoveries.

According to Weinstein, Epstein and his girlfriend's father were part of a "control mechanism" designed to keep revolutionary discoveries "within a framework."

In plain English, that likely means discoveries didn't see the light of day unless whoever was controlling Epstein approved it.

"I was in the Harvard Mathematics Department. Jeffrey Epstein was absolutely connected to the Harvard Math Department. I want to know why. How was he connected to the Math Department?"

"Jeffrey Epstein knew a tremendous amount about my work when nobody knew anything about my work."

"It was very important to get Nobel laureates and some of the smartest people on Earth to come to the Virgin Islands and talk about gravity. Stephen Hawking was there, David Gross was there. Lawrence Krauss was there. Lisa Randall was there right before his conviction."

"I think that his girlfriend's father, Robert Maxwell, was all through scientific publishing. And I think Pergamon Press was in part a control mechanism for making sure that revolutionary discoveries were taking place within a framework."

"I think Jeffrey Epstein was in part trying to fund science, trying to control it. I don't really know."

This 7-minute clip says a lot.

JEFFREY EPSTEIN

Nothing can stop the truth coming out!

This Epstein clip will send chills down your spine. Have you ever seen

This is Cindy McCain admitting that “everyone” in elite politics knew Epstein was raping underage kids but no one acted because they were “afraid” of the pedophile.

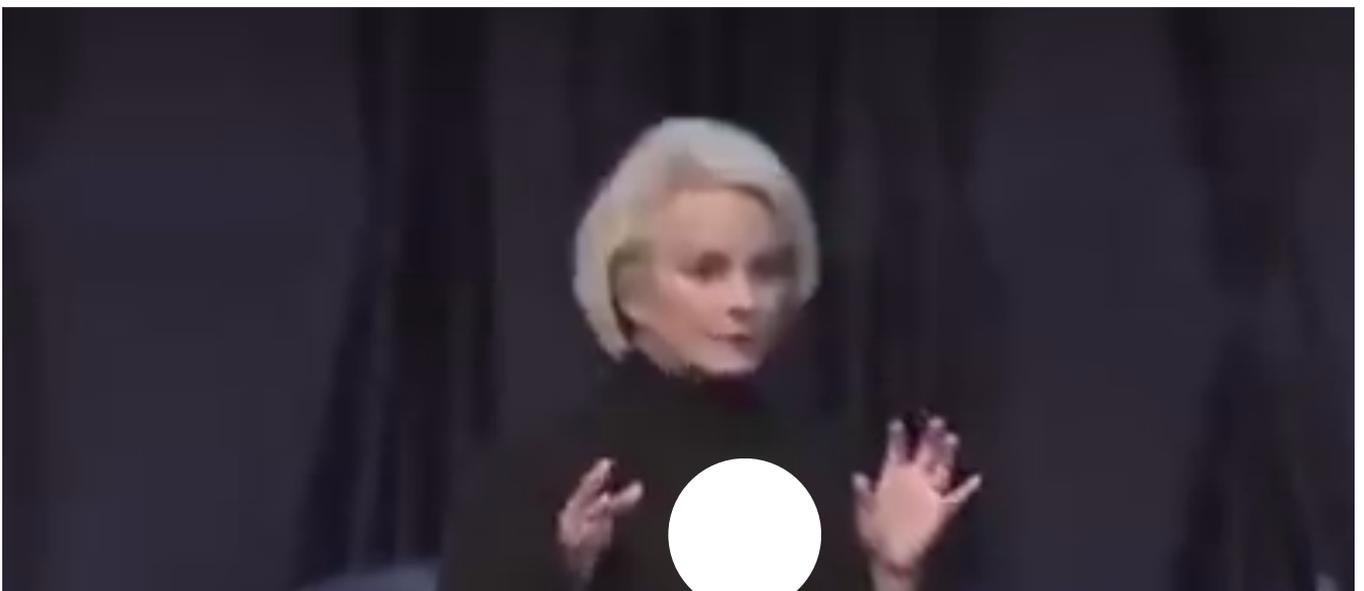

What an astonishing admission from one of the most powerful women in American politics whose husband was the Republican candidate for President.

The DOJ, FBI, federal law enforcement, and powerful politicians all knew about Epstein’s crimes and chose to look the other way.

They didn’t just ignore it. They were enablers by their silence.

Now the DOJ wants you to believe there’s no Epstein client list, no evidence, and that the case is closed!?

This is not Justice. Something dark is happening here...

Jeffrey Epstein Did Not Kill Himself

Posted Jul 10, 2025 By Martin Armstrong | 5 minutes read

(Pam Bondi in February 2025)

Jeffrey Epstein carried out the most successful, deeply rooted blackmail operation in modern history. US intelligence suddenly pivoted to say that Jeffrey Epstein never kept a client list, did not blackmail political figures, and was not involved in the case. Epstein's case has been deemed a conspiracy by the deep state, but the truth of the matter is that his connection runs deep and that unveiling the plethora of information he kept could topple governments.

Those familiar with my writings are aware of "The Club," a group of powerful market manipulators who possess the means to create shadow governments. Robert Maxwell is Ghislaine Maxwell's father with deep ties to Mossad. [In an I explained in detail Maxwell's connection to the Club, Goldman Sachs, Lehman, Safra, and other major players.](#) "Seize Russia" also details his connections that tie into the deep state intelligence agencies. Epstein Island was far more than a pedophile ring.

Epstein His Connection to “The Club” of Manipulators

Posted Aug 13, 2019 By Martin Armstrong | 9 minutes read

Ghislaine Maxwell
(born December 25th, 1961)

Ghislaine Maxwell was more than the alleged protector and procurer of young girls for Jeffrey Epstein as well as his girlfriend based upon allegations. However, she is also the daughter of **Robert Maxwell** who I believe was a member of “**The Club**.” Interestingly, **Maxwell’s** protege was also **William Browder** who loves to run around claiming he is the number one enemy of **Putin**. While the prosecutor wants to charge **Ghislaine** with conspiracy, nobody knows where she is. That alone in today’s world seems unbelievable. Use a credit card or turn on your phone and they have you. You need cash and a burner phone just to start. Then you need fake passports for you to book a ticket in your name and they will be there when you land waiting with open arms.

Watch: Investigative Journalist Explains Why Epstein Case Will Never Progress...

“They’re not going to give an inch”

Journalist Nick Bryant notes in this viral clip from the Shawn Ryan podcast that the Jeffrey Epstein case is being covered up by the federal government and will never progress because it would destroy their entire operational system.

“Epstein had cameras in all of his homes. Epstein was definitely a black and white artist,” Bryant notes.

“The government wants to make sure that that does not come out. A huge part of our political system is predicated on blackmail,” he adds.
