

EPSTEINsteria: Best Pam Bondi Only Cares About the Stock Market Memes

Thank Baal for the S&P 500, Pam dropped the Baal on this, thank Moloch the Dow high for accountability, Dow syndrome and more Pam Bondi only cares about the market memes!

FEB 17, 2026

It comes to our attention that according to the Epstein Files (“pizza,” “grape soda,” “b jerky,” etc), some members of the western elite are satanic cannibal pedophiles who ra eat kids plus enjoy watching torture videos; but what matters more is how high the stc market is...:

@Antunes1

Pam Bondi LOSES HER MIND when asked why she has not indicted any of Jeffrey Epstein’s clients.

“The Dow is over 50k right now, the Nasdaq smashing records, that’s what we should be talking about!!”

Shadow of Ezra ✓

@ShadowofEzra

Pam Bondi goes on a completely unhinged rant about the stock market when asked why she has not indicted any clients of Jeffrey Epstein.

Bondi says all Americans need to focus on other topics, like the economy, and not on Jeffrey Epstein's child trafficking network.

“That’s what we should be talking about.”

This is a good opportunity to see who is saying what about this and who is being quiet therefore on someone's payroll, being blackmailed, or are too scared to talk about...):

FYI: GOP officials yesterday spread the word to right-aligned influences that if they said anything critical of Bondi that Bondi would use the DOJ against them personally.

1. The new batch of Epstein documents helps illuminate one contemporary controversy: What is Bari Weiss up to at CBS? I think the answer is she is trying to rehabilitate the Epstein network as a bulwark of reactionary centrism. Let me explain.

Notice: [@benshapiro](#) has ZERO TWEETS about the Epstein files and [@marklevinshow](#) has ZERO TWEETS about the Epstein files and [@josh_hammer](#) has ZERO TWEETS about it and [@bariweiss](#) has ZERO TWEETS about it.

The silence is very telling.

As long as she doesn't drug and rob our agents, we'll consider that an improvement over her past behavior.
