I was once a healthcare worker in a pediatric setting. I would go to the "babyland" section nearby cemetery to visit several of the babies we lost. Rarely, would I see a new grave, and always stood out, due to their freshness. Last time I went in 2023, there were 17 new babies all with birth and death listed as the same date. This is one small cemetery in Tucson.

Even now, try telling this truth to the average Blue-pilled Pinhead, see how far you get. Up Woke Canuckistan, Mark Carnage has his ill-gotten majority government, it will shortly be Venezuela V.2.0... the lunacy in The Strait of Hormuz continues; as Donald strangles the price of everything will go up and up and up; hyperinflation and social collapse — and widespread starvation, don't kid yourself — will soon be commonplace, as the Demons-in-murder most of humanity pursuant to Digital IDs, Central Bank Digital Currencies, "15-min (IOW Gaza-style concentration camps) and Chinese-style Social Credit. Covid-19 and the Injections were just a warm-up act.

I walked away from my job November 2021 rather than comply. Next day on CFXA Radio listen to British Columbia's Minister of Health, Adrian Dix, openly wish for the power to arbitrarily arrest and confine the non-compliant. I was unemployed for 8 months, as a Pureblood I was banned from restaurants, cinemas, theatres, concerts, sporting events, public gathering or private party; I was disallowed all public services, Unemployment and Welfare, I was banned from Hospital "Emergency"; Hell: I couldn't even attend Church without the government's "Vaccine Passport" on my cellphone. \$37,500 income lost before taxes... OTOH I have my health and physical integrity: I'm not now a genetic cripple unlike about 98% of British Columbians... 🙄

And the bastards responsible? They've not been arrested. They've not been held to account. For the Love of Christ, they (somehow) won the next provincial election! Our Chief Public Health Officer, "Butcher Bonnie" Henry? The evil bitch was awarded "The Order of Canada" for her role in hands down, the most monstrous crime in human history!! My question is, where is she right now, shackled naked to the floor of a rat-infested dungeon awaiting her appointment with the axeman, or more to the point, The Stake?

But at least now I have some idea what it was, to have been a Jew in early Nazi Germany.

OTOH, I haven't got myocarditis like my friend Rainer, and I haven't died of cancer like my co-worker Amrik. At this point thanks to The Lethal Injection small circle I'm aware of 16 deaths - 17 counting my ex-landlady's (4 doses cat Mischief: She had to have him put down with an inoperable bloodclot. A permanent, debilitating injuries.

I wrote about my experience at some length here:

And my bet is that all of the corrupt politicians with their hands out for reward knew, and i didn't get it or faked it!

And by the way the 'mark of the beast' is not the ✍ but the \$ - can you buy or sell without rules everything and brings out the worst in people.
