

# MAHA SUBVERSION: Activist Judge Issues Sweeping Injunction Blocking HHS Secretary Robert F. Kennedy Jr. From Reforming Childhood Depopulation Injection Schedule

⚠️ THE LIFESAVING FLASH SALE ENDS TOMORROW ⚠️

2ND SMARTEST GUY IN THE WORLD

MAR 17, 2026

Setting aside the irrefutable fact that no vaccine is safe, effective, necessary, or a single placebo-control RCT, a BigPharma-captured Biden-appointed radical communist U.S. District Judge Brian E. Murphy of Boston has prevented RFK from reforming the childhood vaccine schedule.

The ruling is a total subversion of public health policy, and specifically targets revision of the childhood immunization schedule, which reduced the number of recommended vaccines from 17 to 11, of which none of these depopulation injections should ever have been recommended in the first place, unless, of course, there is the most nefarious and extraordinarily profitable eugenics program informing the “health” policies.

Also, this criminal judge removed and replaced ACIP members, which is the panel that guides vaccine policies; unsurprisingly, the ACIP’s scheduled meeting next week to discuss PSYOP-19 (in the year 2026) scamdemic “vaccines” has now been canceled courtesy of this unconstitutional color of law ruling.

In other words, America is being governed by a gang of compromised ideolog  
Federal judges working on behalf of their Intelligence-Industrial Complex har  
and various corporate interests; to wit:

Interesting judicial ruling on ACIP. TL;DR-

1. The President does not have authority over HHS.
  2. HHS does not have authority over its agencies.
  3. The agencies do not have authority over their advisory committees.
  4. "Experts" in the administrative state have ultimate sovereignty over us al
  5. One robed lawyer in Massachusetts gets to decide who the "experts" are.
- Everyone clear?

If I were to summarize this judge's opinion on ACIP, it would be: pharma, not the people and their representatives, should be in charge of government and its operations. [static1.squarespace.com/static/61910a2...](https://static1.squarespace.com/static/61910a2...)

At this stage, the only true science-based reform to the childhood vaccine schedule is to outright ban **all** of the shots forever, because they are all deadly in varying degrees and offer absolutely no protection against any diseases whatsoever:

## If ALL Vaccines Are Unsafe And Ineffective, Then Why Are They Being Foisted on Humanity?

There is not a single vaccine that is safe, effective, or in any way necessary; in fact, all of the vaccines are actually far worse than the diseases they fraudulently purport to protect against.

This is dumb.

Cripes it's so simple. "CHILDHOOD VACCINE POLICY" WASN'T WORSE BEFORE! Certainly not in terms of placebo-controlled RCT safety studies (they're non-existent), balance, fairness and the right to choose.

The people involved (aka: AMERICAN ACADEMY OF PEDIATRICS, *et al.*) fighting *against a more balanced approach* to a US childhood vaccine policy care about YOU, your children or vaccine safety, in my *very* educated and experienced opinion, and more often than not, are seriously financially-con

Sorry, but it's the truth. If they cared, they themselves would retroactively DEMAND placebo-controlled RCTs for all vaccines. They do not. Status quo they know and I'm not sure they even know what that means.

When the old things are clearly a train wreck, sometimes, you simply have to try new things and see what happens.

Make America Healthy Again? Hmm.

1. BLOCKS the vaccine schedule overhaul from 17 to 11 vaccines
2. BLOCKS ending universal newborn Hepatitis B shots

U.S. District Judge Brian E. Murphy has made a grave mistake.

As a result, the previous CDC childhood hyper-vaccination schedule remains in effect for now.

The ruling is NOT a final decision and is expected to be appealed.

The Bio-Pharmaceutical Complex remains fully operational.

Trump has ordered a FAST TRACK overhaul of the U.S. hyper-vaccination schedule.

A new study indicates that reducing U.S. childhood vaccine load from 72 to 11 doses could lower autism rates by ~40%.

This could prevent ~46,000 autism cases per year.

Abolishing the Centers for Disease Crimes (CDC) and their FDA partners-in-crime is long overdue:

The lesson here is educate yourself and don't look to the government or [@AmerAcadPeds](#) for health advice. We should abolish the CDC, but the next best step is to completely ignore it.

Federal judges like Murphy must be relieved of their duties at once and indict this Constitutional Republic will forever be captured and subverted.

These malefactors in robes are perpetrating crimes against humanity, and war in control of We the People's health and bodies.
