Not brave, just an admission of what we all know, and say at the privacy of the dining table. Absent national discourse we cannot solve the problem. The national voice rig blames white supremacy, a lie, a construct, a cudgel, to beat white people into a sub where we allow people of color an advantage undeserved. Unconstitutional. position advancement beyond our station, just for skin color. Money flow. "Free".

But now the problem is naturally spilling out into polite society. Where WE live.

If we don't speak up it will be you, or me, dining patio side when the "Wilding" come:

Nope.

Some counters. Blacks had a higher marriage rate than whites in the 1950s. The Welfare Society initiatives of the 1960s destroyed that. Government dependence was pushed on Women could not get the benefits with a male head of household in the picture. High pay collar jobs began to be sent to developing nations. Margaret Sanger and Bill Gates Sr began target black communities for abortion with black aborting rates now at 3x the rate of other ethnicities. Jewish music producers were famous for creating the rap/ghetto culture start 1990s. If you go back to the federally controlled KKK, many of those famous lynchings and burnings were done to oust successful black farmers and business people in the south, with land and assets later found to be in possession of the local white elites. Then the blacks were a gay half white guy and his gay tranny "wife" to exploit racism as the presidential couple years; and then the Jewish dominated media making a saint of George Floyd, a violent drug addict. And wasn't the CIA shown to be responsible for the high volume of drugs being funneled into black ghettos of the US? It goes on and on. I too avoid most blacks and ghetto areas for these reasons. While it is true that blacks should own their current situation and seek to change it, they should recognize that they have been under white and Jewish attack for a long time. PS. I don't have the problem of lax or nonexistent law enforcement for theft and crime in general in most of the US, where the worst behavior has no consequence and is directly responsible for the wholesale crime sprees or wildings that you describe. That MUST change or such a crime will spread to a neighborhood or shopping district near you.
